

Stay in Slovenia was a fun experience. I met many new people and friends. Many sports, I found different things to the lifestyle of people in Slovenia. We traveled to interesting places saw most various landmarks. I saw they have a very different education system to ours. Their school was well organized. Have all kind of sports they study with music, dance sport and others. In our trip to Škofja Loka saw carpentry school with great potential and a school for children with special needs school activities there were organized with attention to every child and care for them are amazing.

Lyubomir

Slovenia is a small but beautiful country with great historical and cultural heritage. I was amazed by the incredible natural beauty, high peaks, clean streets, kindness and attention of the people who were around me. The city we were in, Jiri was a small tidy and beautiful place surrounded by mountains the people I met were kind and helpful. We were at the most wonderful places like Bled, Ljubljana, Postojna cave and many other places. Bled was dazzling with incredibly beautiful lake and architectural heritage as Bled castle and church "Assumption". On the other hand capital Ljubljana is a beautiful city with wonderful cultural attractions.
